

NONDESTRUCTIVE TESTING (NDT) AND QUALITY ASSURANCE (QA)

Program description

The Nondestructive Testing (NDT) course is designed for business and industry professionals who want to quickly learn or enhance their foundational skills in nondestructive testing. The course focuses on Visual Inspection and Fluorescent Penetrant Inspection (FPI).

Other important information

Completion of the NDT course qualifies as a portion of formal NDT training (contact hours) but does not certify a student as an inspector. Certification, governed by specific industry standards, also requires written testing and on-the-job training under the supervision of a qualified technician. Additional classroom (contact hour) training may be required.

Financial aid eligibility

This program is **not** Federal Financial Aid/Pell-Eligible.

Scholarships, payment plans, and other financial aid options may be available. For more information, call 216-987-6000, option 1.

Upon completion students receive

Certificate of Completion for the course upon request.
