

# PARALEGAL STUDIES, POST-DEGREE PROFESSIONAL CERTIFICATE

This certificate program is designed for students who already have an associate, bachelor's, or master's degree. The program educates students to serve as paralegal professionals and work independently in the legal field under the supervision of attorneys. Students receive a general legal education with course work in civil procedure, legal research & writing, law office technology, torts & evidence, and business transactions. Graduates are prepared for careers in law firms, government agencies, corporations, or in non-profits that interface with the legal system. Paralegals organize and manage work flow in law office settings, draft legal documents, research and draft legal memoranda, and prepare attorney billings. They conduct background checks, interview clients and pursue factual investigations for employers. Paralegals may prepare witnesses for depositions and for trial. They organize client files and generally maintain client relationships. Paralegals may serve as employer liaisons to business, the police, other attorneys, government officials and the courts. Paralegals cannot accept a case, set fees, give legal advice or represent a client in court. Paralegals may not provide legal services directly to the public, except as permitted by law. This is an American Bar Association approved program.

This program is available to be completed 100% online.

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.
