

# PROJECT MANAGER ENTRY-LEVEL CERTIFICATE

## Program description

This certificate program gives project practitioners the knowledge and skills required to support project management at their organization. It prepares participants for entry-level career opportunities in project management and provides those already working as project managers with the skills required for project management certification.

Project managers are responsible for planning, executing and closing projects, typically in the construction, engineering, architecture, software, banking and insurance industries.

## Certificate includes

- Frontline Leadership: The Leadership Journey
- Introduction to Project Management or Introduction to Agile and Scrum
- PMI® Certificate Exam Prep (Certified Associate in Project Management (CAPM))

### Additional offerings of interest (not included in price):

- Lean Six Sigma Yellow Belt (LSSYB)
- Certified Scrum Master (CSM)

## Who should attend?

- Those new to project management
- Project coordinators, schedulers, business analysts, associate project managers, estimators and testers
