

QUALITY CONTROL, CERTIFICATE OF PROFICIENCY

This certificate is geared to those seeking an entry position in the area of quality control in industry. Students are introduced to the quality control of mechanical parts and systems. Inspection of parts is done using the skills of blueprint reading of Geometric Dimensioning & Tolerancing and inspection tools and equipment. Application of math and communication principles.

Program contact: Learn more (<http://www.tri-c.edu/programs/engineering-technology/manufacturing-engineering/quality-control-certificate.html>)

This certificate will be automatically awarded when the certificate requirements are completed. If you do not want to receive the certificate, please notify the Office of the Registrar at RegistrarOffice@tri-c.edu.

Program Admissions Requirements

- High School Diploma/GED
- Complete ENG-1010 College Composition I or ENG-101H Honors College Composition I
- MATH-0965 Intermediate Algebra with grade of "C" or higher
- Complete MET-1100 Technology Orientation

Program Learning Outcomes

This program is designed to prepare students to demonstrate the following learning outcomes:

1. Communicate effectively and efficiently with diverse individuals and teams, all levels of employees, customers, and suppliers by means of verbal, written (memos, reports, emails, etc.), graphics, symbols, and effective listening skills and using appropriate technology.
2. Complete tasks and projects on schedule through the effective use of time management, appropriate math skills, and teamwork that fosters inclusion, synergized efforts in problem identification, and

troubleshooting for successful resolution of problems towards the achievement of set goals and objectives.

3. Apply quality systems, principles, and concepts, and utilize appropriate math, measurement, data collection and statistical tools and technology to improve processes and product quality, and to enhance productivity.
4. Incorporate safety awareness, principles and practices in every aspect of work and as a way of life, including machine safety, environmental safety, chemical safety, and personal/ employee protection.
5. Interpret drawings using proper dimensioning, tolerancing for size and geometry, and proper industry standards and conventions.

Suggested Semester Sequence

Course	Title	Credit Hours
First Semester		
MATH-1530	College Algebra (or higher)	4
MET-1100	Technology Orientation	2
MET-1230	Drawing & AutoCAD	3
MET-1240	Machine Tools and Manufacturing Processes	3
Select one of the following:		3
ENG-1010	College Composition I	
ENG-101H	Honors College Composition I	
Credit Hours		15
Second Semester		
HLTH-1230	Standard First Aid and Personal Safety	1
MET-1400	CNC Programming and Operation	3
MET-2400	Statistical Quality Control	3
MET-2422	Fundamentals of Engineering Economics	3
MET-2500	Fundamentals of Products Development and Manufacture	3
MET-2730	Lean Manufacturing	3
Credit Hours		16
Total Credit Hours		31
