COMPUTER MAINTENANCE (ZACM)

ZACM-1015 CompTIA Tech (FC0-U71) Certification Course and Examination
5.6 CEUs

With CompTIA Tech , you can explore the beginnings of various technology concepts and career paths, from building computers to computer programming and from secure internet browsing to building databases. CompTIA Tech focuses on the essential technology skills and knowledge used daily by skilled technology users both in and outside of the IT industry.   This course can prepare you for the CompTIA Tech (FC0-U71) certification examination and provide a solid foundation as a tech-fluent technology user. It utilizes a learning progression model to help you learn and build skills related to the course objectives, daily technology interactions and career skills needed across various fields. This learning methodology uses a series of steps to contextualize what you're learning, elaborate on areas where additional instruction is needed, and provide relevance through practice and personalized feedback. You'll then apply what you learned and demonstrate the skills you've gained through a series of lab activities and quizzes.
