

# AMERICAN SIGN LANGUAGE, ASSOCIATE OF ARTS

The Associate of Arts degree in American Sign Language is designed to prepare students to transfer to a four year program in American Sign Language/English Interpreting, or for students who plan to enter another field in which they would work with Deaf people on a regular basis, such as in the medical, educational, early childhood, vocational rehabilitation, and social work settings, or other community agencies.

This program has two areas of focus:

- The study of Deaf Culture and community and its social norms and rules of social interactions; and
- Principles of receptive and expressive ASL to include vocabulary, sign parameters, grammar structure and syntax, semantics and pragmatics while incorporating culturally appropriate body posture, hand gestures and facial expressions.

1. Communicate effectively in American Sign Language in everyday interactions, using culturally appropriate body posture, signed parameters, facial expressions, hand gestures, and vocabulary.
2. Deliver simple presentations on a wide variety of familiar topics in ASL, with or without visual support.
3. Navigate social interactions in culturally appropriate ways in everyday situations, sometimes even when there is a simple complication.
4. Receptively understand sign language conversations and respond appropriately.
5. Recognize the diversity in signing amongst various populations.
6. Assess and match the diversity in signing language in order to meet the needs of the deaf individual.
7. Communicate effectively in spoken and written English, for an intended audience, using clear, organized language.
8. Use critical thinking skills to adapt to changing situations, make ethical decisions, and resolve problems.
9. Be prepared for sign language proficiency entry exam/interview for admission to 4 year program or potential employment

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.

First Semester		Credit Hours
ASL-1010	Beginning American Sign Language I	4
ASL-1001	Fingerspelling	2
ENG-1010	College Composition I	3
PHIL-1000	Critical Thinking	3
ASL-1100	Deaf Culture	3
Credit Hours		15

Second Semester		Credit Hours
ASL-1020	Beginning American Sign Language II	4
BIO-1050	Human Biology	3
BIO-105L	Human Biology Laboratory	1
ENG-1020	College Composition II	3
MATH-1XXX	MATH-1000 level or higher	3
PSY-1010	General Psychology	3
Credit Hours		17

Summer Session		Credit Hours
ASL-2010	Intermediate American Sign Language I	4
Credit Hours		4

Third Semester		Credit Hours
ASL-2020	Intermediate American Sign Language II	4
COMM-1010	Fundamentals of Speech Communication	3
PSY-2010	Child Growth and Development	3
Select one of the following:		2-3
DIS-1310	Interpreting I <sup>1</sup>	
SPH-2150	Introduction to Speech Pathology	
Credit Hours		12-13

Fourth Semester		Credit Hours
ASL-2412	Advanced American Sign Language I	4
ENG-2XXX	2000 level OTM approved Literature	3
SOC-1010	Introductory Sociology	3
Natural Science Requirement		3
Arts/Humanities Elective		3
Credit Hours		16
Total Credit Hours		64-65

<sup>1</sup> Recommended for students planning to transfer into a 4 year program in Interpreting for the Deaf.

<sup>2</sup> Recommended for students planning to transfer into a four year program in Speech and Hearing.
