

BUSINESS MANAGEMENT (SUPPLY MANAGEMENT), POST-DEGREE PROFESSIONAL CERTIFICATE

This certificate program is designed for students who already have an associate or bachelor's degree. The program presents students with the theoretical background needed to function in today's dynamic supply environment. Students receive a general supply chain management education with course work in purchasing, logistics, production/operations management, negotiating, freight management, accounting and business law. Graduates are better prepared for careers in business and industry that deal with the issues of supply chain management. Courses included in this program serve as the foundation of study for the four modules leading to the A.P.P. and C.P.M. designation. Typical students considering this course of study are employed in or seeking employment in areas of business in manufacturing or service that deal with the supply management process.

This program is available to be completed 100% online.

BADM-2760	Global Trade and Finance	3
BADM-2780	Global Marketing and Distribution	3
MARK-2261	Integrated Marketing Communications	3

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.
