

DATA ANALYTICS, POST-DEGREE PROFESSIONAL CERTIFICATE

This post-degree professional certificate program prepares students to use tools and techniques to understand and transform data, to apply statistics to find patterns and correlations, and to use modern reporting and analysis tools to find and communicate insight from big data.

Program contact: [Learn more](#)

This certificate will be automatically awarded when the certificate requirements are completed. If you do not want to receive the certificate, please notify the Office of the Registrar at RegistrarOffice@tri-c.edu.

Learn more [here](#) and [here](#) about how certificate credits apply to the related degrees.

Students must have earned an Associate's degree or higher to enroll in this program.

Program Learning Outcomes

1. Understand, build, and manipulate 2-dimensional and 3-dimensional data structures and indexes.
2. Understand, build, and manipulate complex SQL queries.
3. Understand, build, and manipulate data transfer tools & data interfaces.
4. Understand and maintain data validation and governance.
5. Utilize effective communication skills to work within teams to successfully deliver projects.
6. Using modern reporting and presentation tools (i.e. SAS, TABLEAU, COGNOS) query and extract data to produce meaningful business insights.

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.

Suggested Semester Sequence

First Semester		Credit Hours
IT-1025	Information Technology Concepts for Programmers	3
IT-1080	Introduction to Data Analytics	4
Select one of the following:		3
MATH-1410	Elementary Probability and Statistics I	
MATH-1490	Business Probability and Statistics I	
Credit Hours		10
Second Semester		
IT-1050	Programming Logic	3
IT-2351	Enterprise Database Systems	4
Select one of the following:		3
MATH-1420	Elementary Probability and Statistics II	
MATH-1500	Business Probability and Statistics II	
Credit Hours		10
Summer Completion		
IT-2080	Data Visualization	4
IT-2090	Data Analytics Programming	4
Credit Hours		8
Total Credit Hours		28
