

DIGITAL LEARNING DESIGN

Program description

Corporate College® has partnered with the Digital Learning Institute (DLI) to offer Digital Learning Design.

Design end-to-end digital learning experiences with the industry and globally recognized online and virtual course, designed for people looking to build a career as a digital learning professional. Core instructional design skills for all forms of digital learning — including videos, multimedia eLearning, microlearning, podcasts, social learning and immersive learning — are provided. This course was developed by a team of experts to help educators and learning professionals become experts in digital learning.

- Advance your career as a specialist in digital learning design.
- Build your instructional skills for all forms of digital learning.
- Design high-impact end-to-end digital learning experiences.
- Apply UX and UDL principles to your digital learning experience.
- Practice the latest tools and tech for building digital learning.

Other Important information

How is the course assessed?

- Learners are assessed on an individual, work-based project.
- The project involves designing an end-to-end learning experience featuring a range of eLearning formats.
- Project work is ongoing throughout the course.
- Learners receive mentor guidance and peer feedback.
