

# FITNESS SPECIALIST, CERTIFICATE OF PROFICIENCY

The Fitness Specialist Certificate of Proficiency is designed for those who wish to find or build upon a career as a personal trainer in the growing fitness industry. Students will gain knowledge and develop hands on practical skills in exercise anatomy, basic and advanced exercise training techniques, health and nutrition, sport injury care, and exercise prescription and program design. After completing the courses for this certificate of proficiency, students will be prepared to take a national, accredited certification exam for personal trainers.

<sup>2</sup> Highly recommend SES 2500 for students looking to gain eligibility for the National Board Certified Health & Wellness Coach (NBC-HWC) credential.

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.
