

# LANDSCAPE DESIGN, SHORT-TERM CERTIFICATE

This two semester certificate program offers basic to advanced landscape design skills to persons who are seeking a career in landscape design but who may not desire a full degree. The certificate is also helpful to those already employed in the landscape industry who have a desire to upgrade their knowledge and skills in order to be a more valuable staff member. The Plant Science and Landscape Design Short-Term Certificate features course work in such horticulture basics as plant identification, landscape design, landscape project estimating and management and current landscape practices.

**Program contact:** Learn more

**This certificate will be automatically awarded when the certificate requirements are completed. If you do not want to receive the certificate, please notify the Office of the Registrar at RegistrarOffice@tri-c.edu.**

Learn more about how certificate credits apply to the related degree.

## Program Admission Requirements

- High School Diploma/GED not required, but highly recommended
- Complete English placement test.
- Complete Math placement test

## Other Information

- Submit all college transcripts to Office of the Registrar.

## Program Learning Outcomes

This program is designed to prepare students to demonstrate the following learning outcomes:

1. Ensure that a landscape design is properly created by actively listening, understanding, and implementing instructions and effectively translating them to select and place appropriate plants and materials in a landscape setting.
2. Apply knowledge of deciduous, evergreen and herbaceous plants, their growing habits and needs, and appropriate placement within the landscape.
3. Demonstrate knowledge of landscape business requirements including estimating, profit and loss analysis, pricing strategies and customer relations.

MATH-1140, MATH-1141, MATH-1200, MATH-1270, and MATH-1280 can no longer count towards fulfilling the college-level mathematics requirement. These courses were re-classified as developmental mathematics by the state of Ohio in 2016. Tri-C established a 5-year

transitioning window for students who had completed these courses prior to 2016 to apply them towards meeting graduation requirements, which expired in Summer 2021. It is highly recommended to see a counselor to determine the appropriate math required for your current major.

## Suggested Semester Sequence

First Semester		Credit Hours
PST-1311	Deciduous Woody Landscape Plants	3
PST-1441	Introduction to Landscape Design	3
PST-1510	Landscape Contracting	3
Select one of the following:		3
IT-1090	Computer Applications	
IT-109H	Honors Computer Applications	
Credit Hours		12
Second Semester		
HLTH-1230	Standard First Aid and Personal Safety	1
PST-1321	Evergreens, Groundcovers, and Herbaceous Landscape Plants	3
PST-1450	Landscape Design - CAD	3
PST-2431	Planting Design	3
Credit Hours		10
Total Credit Hours		22
