Learn more about Powered Industrial Truck/Forklift Operator Training.

Program description

This eight-hour introductory Powered Industrial Truck (PIT)/Forklift Operator program provides initial and continued training opportunities for the operation of powered industrial trucks in line with industry standards. Based on OSHA 1910.178 objectives, the program curriculum is focused on safety and basic knowledge. Classroom and hands-on training are provided in warehouse conditions.

Trained PIT operators are entry-level supply chain workers positioned to understand distribution operations and take on more responsibility related to execution.

Program features:

- Eight hours of training on industry-standard equipment
- Hands-on training in warehouse conditions
- Graduates receive achievement award.
- Small class sizes

Students must:

- Dress for warehouse conditions.
- Wear closed-toe shoes and long pants.

Other important information

- Must be at least 18 years old.

Program cost.

\$250

Tuition is due at enrollment.

Includes:

- Classroom and hands-on training
- All training materials
