

STEELWORKERS FOR THE FUTURE

Learn more about the Steelworker for the Future ATS degree with Electrical Technology and Mechanical Technology options.

Program description

The Steelworker for the Future® program — developed in partnership with Cleveland-Cliffs, the world's leading steel and mining company — targets high-tech, well-paying jobs in electrical and mechanical technology.

The Steelworker for the Future® program empowers you in two ways: it pays you to earn a certificate of technology, and it makes you employable upon program completion.

The Steelworker for the Future® Program offers two options to choose from that both help you earn a certificate of technology study. Students may be eligible for paid internships at Cleveland-Cliffs throughout or after completion of the program.

Highlights

- On-site training at Cleveland-Cliffs
- Apply what you learn in class and earn credit toward your certification
- Receive mentoring opportunities
- Earn wages to pay for your tuition

Outcomes

- Receive a certificate of technology with an option in Electrical Technology or Mechanical Technology.
- Gain the knowledge and practical experience you need to shape your future.
- Upon completion, you could start at Cleveland-Cliffs, earning an attractive wage with vacation, medical and a 401(k) plan with profit sharing.

Program cost

\$124.54 credits/hour
