

# SCHOOL OF ADVANCED MANUFACTURING, ENGINEERING AND COMPUTER SCIENCE

---

- Lean Six Sigma (Professional Development Programs)
- Manufacturing Industrial Engineering Technology
- Mechanical Engineering Technology
- Smart Manufacturing - Mechatronics
- Truck Driving and Logistics (Workforce Training Programs)
- Utilities Technology

- Advanced Manufacturing and Engineering (Workforce Innovation)
- Apprenticeship Programs in the Construction Trades and Manufacturing
- Associate of Science Degree/University Transfer
- Automation Maintenance Engineering Technology
- Automotive Technology
- Computer Science
- Construction Engineering Technology
- Electrical/Electronic Engineering Technology
- Electrical/Electronic Engineering Technology (Bio-Medical)
- Electrical/Electronic Engineering Technology (Computer Networking Hardware)
- Electrical/Electronic Engineering Technology (Digital Communications)
- Industrial Maintenance Technology
- Industrial Welding
- Information Technology (Business Solutions)
- Information Technology (Cybersecurity)
- Information Technology (Networking Administration)
- Information Technology (Programming and Development)
- Information Technology (Workforce Innovation)
- Information Technology-Programming and Development with a Concentration in Quality Assurance
- Integrated Digital Manufacturing Engineering Technology
- ISO Standards and Certified Training (Professional Development Programs)
