

STUDENT ACCESSIBILITY SERVICES (SAS)

Student Accessibility Services (SAS) at Cuyahoga Community College (Tri-C®) determines eligible classroom accommodations, academic and other supports for students with disabilities. Students should complete the "New to SAS" online SAS registration form on the SAS webpage first, then schedule an appointment with an SAS student advisor to provide documentation of disability to receive services. Academic disability accommodations may include extended time for testing, assistive technology, sign language interpreters, disability advising, advocacy and referral to appropriate College programs and community agencies. Some services may take several weeks to arrange. SAS is funded by the U.S. Department of Education, the state of Ohio and Tri-C. Call your campus SAS office or visit the SAS webpage for more information.
