

STUDENT ID CARD, MY TRI-C SPACE, AND E-MAIL

Stomp Card Photo Identification

All Tri-C students are required to have a photo identification card (Stomp Card). Cards are obtained at the campus Enrollment Center upon registration. A government-issued photo ID is required to obtain a Stomp Card. Cards are required for registration activities, library checkout and admission to athletic, cultural and social events. Use of the Stomp Card also allows special discounts and incentives at all campus dining and retail operations including Einstein Bros., vending machines and the College bookstores. Tri-C authorities may ask to see an ID card at any time, so it is important that it is always with you. Cards are non-transferable. There is a \$10 charge to replace a Stomp Card.

my Tri-C space and Student Email

my Tri-C space is a portal that provides the primary point of access – a virtual “front door” – to resources students use on a regular basis. It includes links to registration, grades, financial aid, Blackboard, announcements, campus news, student activities and government websites. Information is personalized and organized by easily navigable headings. Each heading links to subheadings that allow quick access to important information.

Tri-C issues each student an email account. It is accessible by logging in to *my Tri-C space*, selecting the Student heading and clicking on the Student Email icon. You can view your Tri-C email address and update your personal email address by going to the Student heading and selecting “Update My Personal Email.” **Your Tri-C student email account is the official and primary communication method between you and Tri-C.** Visit Tri-C student email information for additional information about student email.

Updating Student Information

Students can update personal information such as last name, address, phone number, email, emergency contact and academic major. Look for these options on the *my Tri-C space* Student tab.
