

OHIO TRANSFER 36 (FORMERLY OHIO TRANSFER MODULE)

Ohio Transfer 36

The Ohio Transfer 36 represents a subset of courses from among the general education requirements of the Associate of Arts (AA), Associate of Science (AS) and bachelor's degrees at many institutions. Applied degree students may complete some individual Ohio Transfer 36 courses within their degree program or continue beyond the degree program to complete the entire Ohio Transfer 36. Transfer students with an earned AA or AS degree which contains an identifiable Ohio Transfer 36 will have met the Ohio Transfer 36 requirements of the receiving institution. Students may be required, however, to meet additional general education requirements at the institution to which they transfer. The application of transfer work to general education requirements which go beyond those contained in the Ohio Transfer 36 will be done on a course-by-course basis. Individual courses that are part of an approved Ohio Transfer 36 are guaranteed to transfer among public institutions of higher education on a course-by-course basis. Students will receive credit for successfully completed courses from the Ohio Transfer 36 without completing the entire module. Learn more about the Ohio Transfer 36 and/or see Tri-C's approved courses below.

Note: All Tri-C general education courses must be Ohio Transfer 36 approved. Students should meet with a Counselor to ensure that courses selected are most appropriate for the intended degree at the receiving institution and its major and program requirements, and that the courses meet Tri-C's minimum graduation requirements. It is also recommended that students review articulation agreements and transfer pathways for required or recommended Ohio Transfer 36 courses.

Ohio Articulation Number (OAN)

Learn more about OANs (select Ohio Transfer to Degree Guarantee on the landing page).

Courses within the Ohio Transfer 36 may also be part of an approved Transfer Assurance Guide (TAG). OANs are listed below for courses that are also part of an approved TAG and begin with "O".
